.PLANQ

www.planqproducts.com

.ANYTHING
BUT ORDINARY

Planq is a sustainable furniture brand founded by the twin brothers Anton & Dennis.

We believe to make an impact by inspiring the world through beautiful designs made from waste materials. By using recycled materials made from textile waste and biobased resources, we want to bridge the gap between contemporary design and environmental consciousness. In order for creating a better tomorrow.

Mission

Our mission is simple: to create a better tomorrow. But simultaneously to inspire others to have a positive impact on the furniture industry as well as the fashion industry. Therefore we mix these two worlds in one unexpected solution, namely our circular furniture and custom-made interior products.

.A CUSTOM-MADE, CIRCULAR DESIGN THAT SUITS ALL

We offer a wide collection of furniture but love to make custom-made, circular interior products. We are here to help to create new designs from waste materials.

From our drive to make circular designs, we always aim to turn low-valued materials into high-end interiors. Transforming textile waste and biobased fibres into a material tells a circular story by its aesthetics. We call it Rezign® Veneer.

Rezign® Veneer.

“QUESTIONING DESIGN WHILE REDESIGNING ‘DESIGN’ “

.MAKE IT BLEND IN

OR STAND OUT

.SUSTAINABILITY

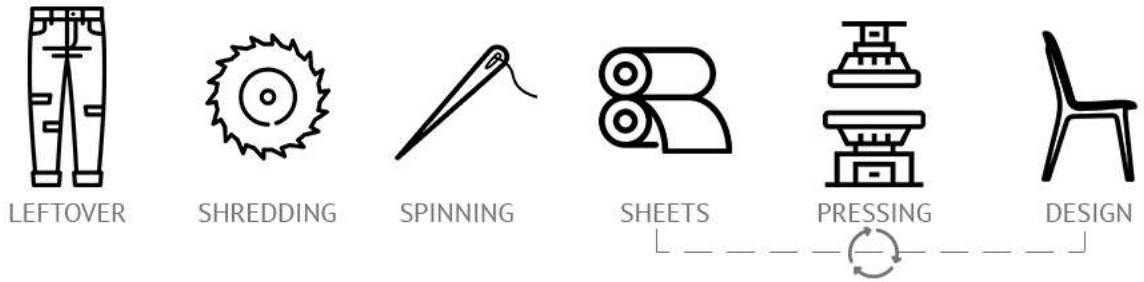
.PLANQ

.FROM JEANS TO CHAIR

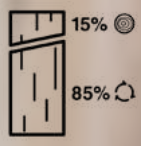
Design studio Planq operates with the ambition to show the world how circular design can be implemented against reasonable pricing. This ambition leaded to a furniture collection made out of recycled textile as a affordable alternative. This shows the world that old textile is not waste but a resource.

INNOVATION & KNOWLEDGE OF TECHNIQUE.

The innovative technique that is being used to create high quality furniture from post-consumer textile proves that these materials can be used for products with high quality finishes.



.OUR WOOD DOES GOOD



.SUSTAINABLE FORESTRY

The core materials within the collections cabinets are selected based on 85% recuperated wood. The remaining 15% consists of residue streams from the wood industry or thinning wood from sustainable forestry.

.LOCAL WOOD

The core material from the collection is obtained from locations within a 400 km beam from the production facility.

.CLOSING THE LOOP

After the products life cycle, the product can be returned to recycle the core material.

.SOLID WOOD

The solid wood used in the collection is FSC certified solid wood. FSC® licence Code: FSC-C159675

.MATERIAL PASSPORT

All Planq products have their own Material Passport. In line with our values regarding sustainability and circularity, this passport contains a performance analysis based on sustainability data, a way for us to be transparant about our products and its footprint.

.REBEL CHAIR

.THE REBEL CHAIR: STEEL FRAMES, STACKABLE AND SUSTAINABLE

The Rebel collection stands out by its steel frame combined with seating made of recycled upholsteries and our sustainable Rezign® material.

The steel frames can be customized in many colours. For the soft seatings, we offer a wide range of recycled upholsteries.

The Rebel chairs comes in many finishes. With the upholstery made from recycled PET bottles, recycled leather and wool, we want to set the new standard for circular fabrics and soft solutions.

.UBU CHAIR

.FROM JEANS TO CHAIR

The Ubu Chair shows that you can turn textile waste into unique, sustainable, environmentally friendly, and above all high-quality products, instead of destroying it.
This chair is perfectly suitable in hospitality, office, and restaurant.

We could make the chair from different recycled textiles but also with your own clothing, creating custom chairs.

.UNUSUAL STOOL

Unusual Barstool in Suits/Oak

.Unusual stool

The Scandinavian-inspired stool owes its name to the unusual composition of materials. The barstool is characterized by superb wood details and quality connections. The frame is available in solid oak and walnut stained ash wood. With its seatings made from textile waste or biobased resources, this barstool is an innovative solution for any interior. Due to the seating being compressed into a solid seat, it has a matte finish.

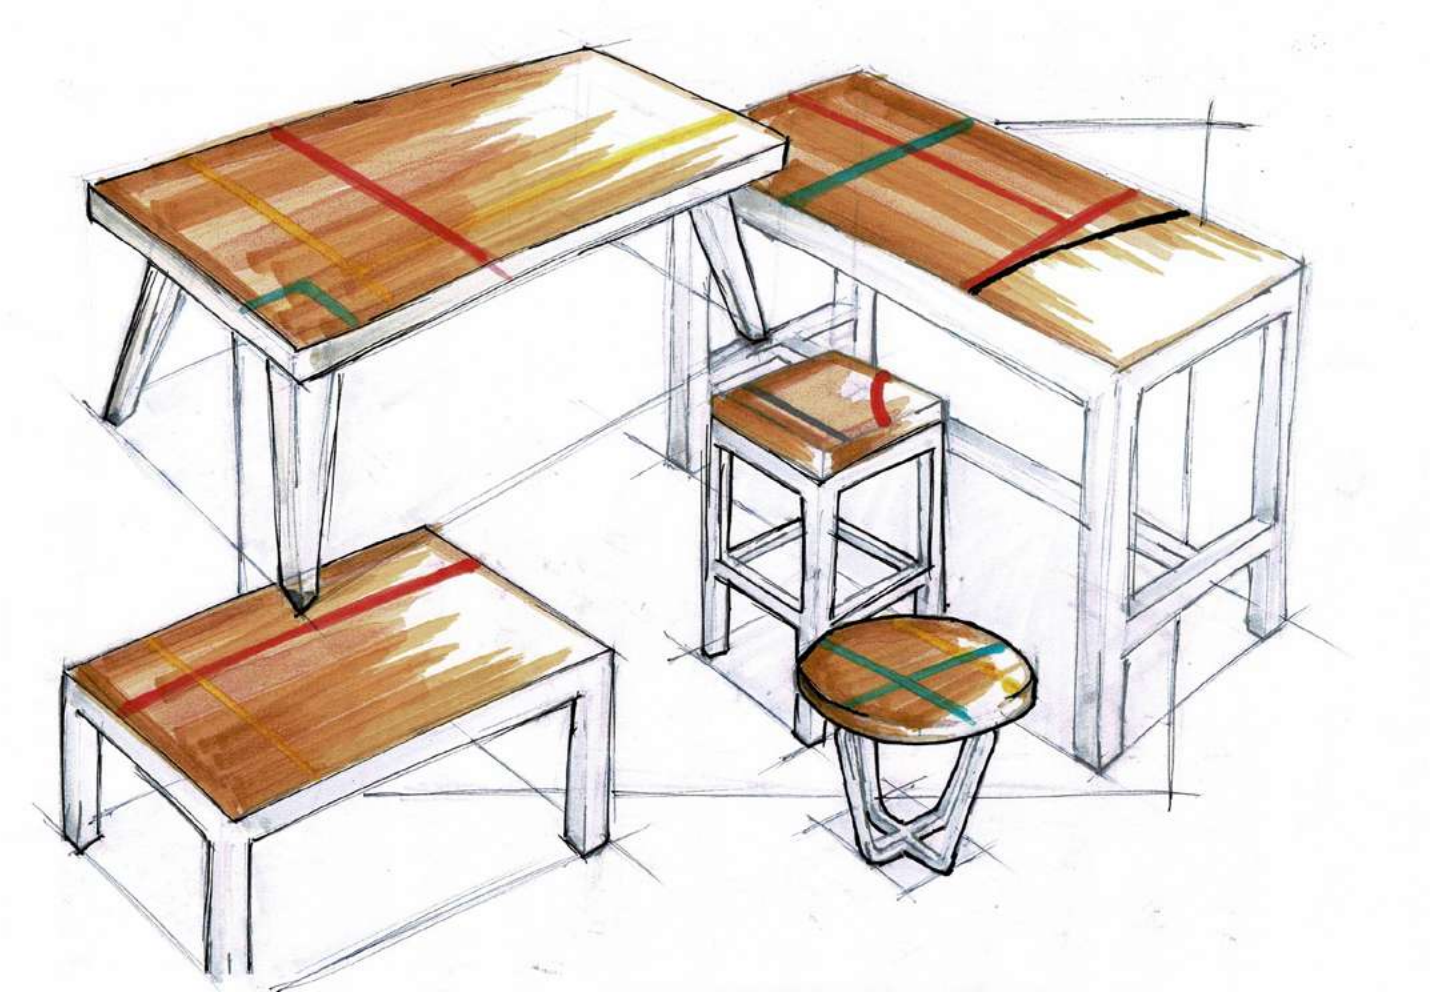
.GYMFLOOR LINE

.PLANQ

.WE PUT A 40 YEAR OLD GYMFLOOR TO USE AGAIN

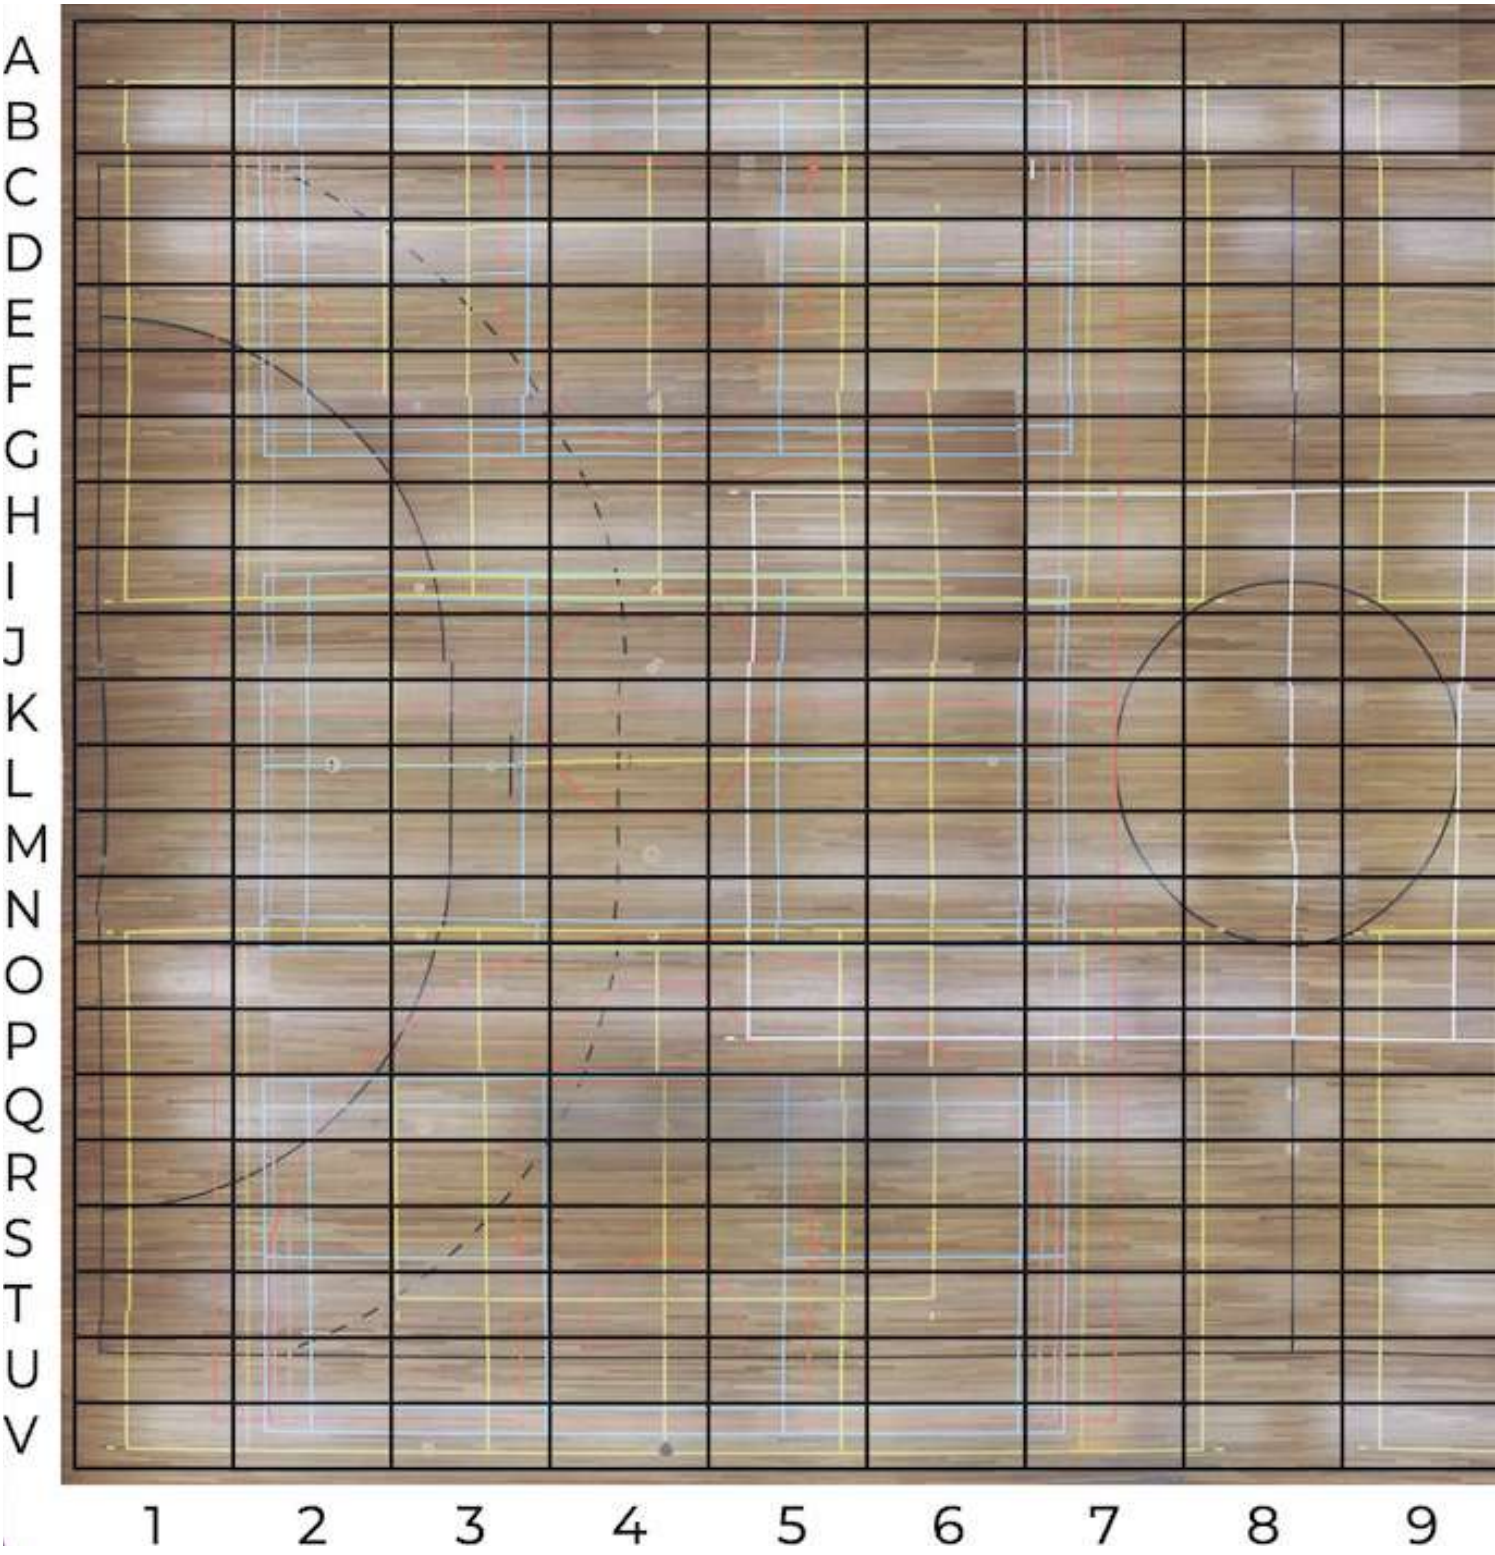
The Gymfloor tables are designed from a circular point of view.
The solid wooden tables are made of a 40-year-old gym floor with a total surface of 1200m². You can compose the Gymfloor tables by choosing a panel with different table sizes, even small coffee tables.

The lived tabletop is provided with an extra transparent lacquer for ultimate protection. The combination of the steel frame and the gymfloor tabletop give rise to an industrial, sporty and unique interior, which will be a talking piece in everyones' home.



Gymfloor table with angled frame and added electric units used in an office environment.

.Create your own table

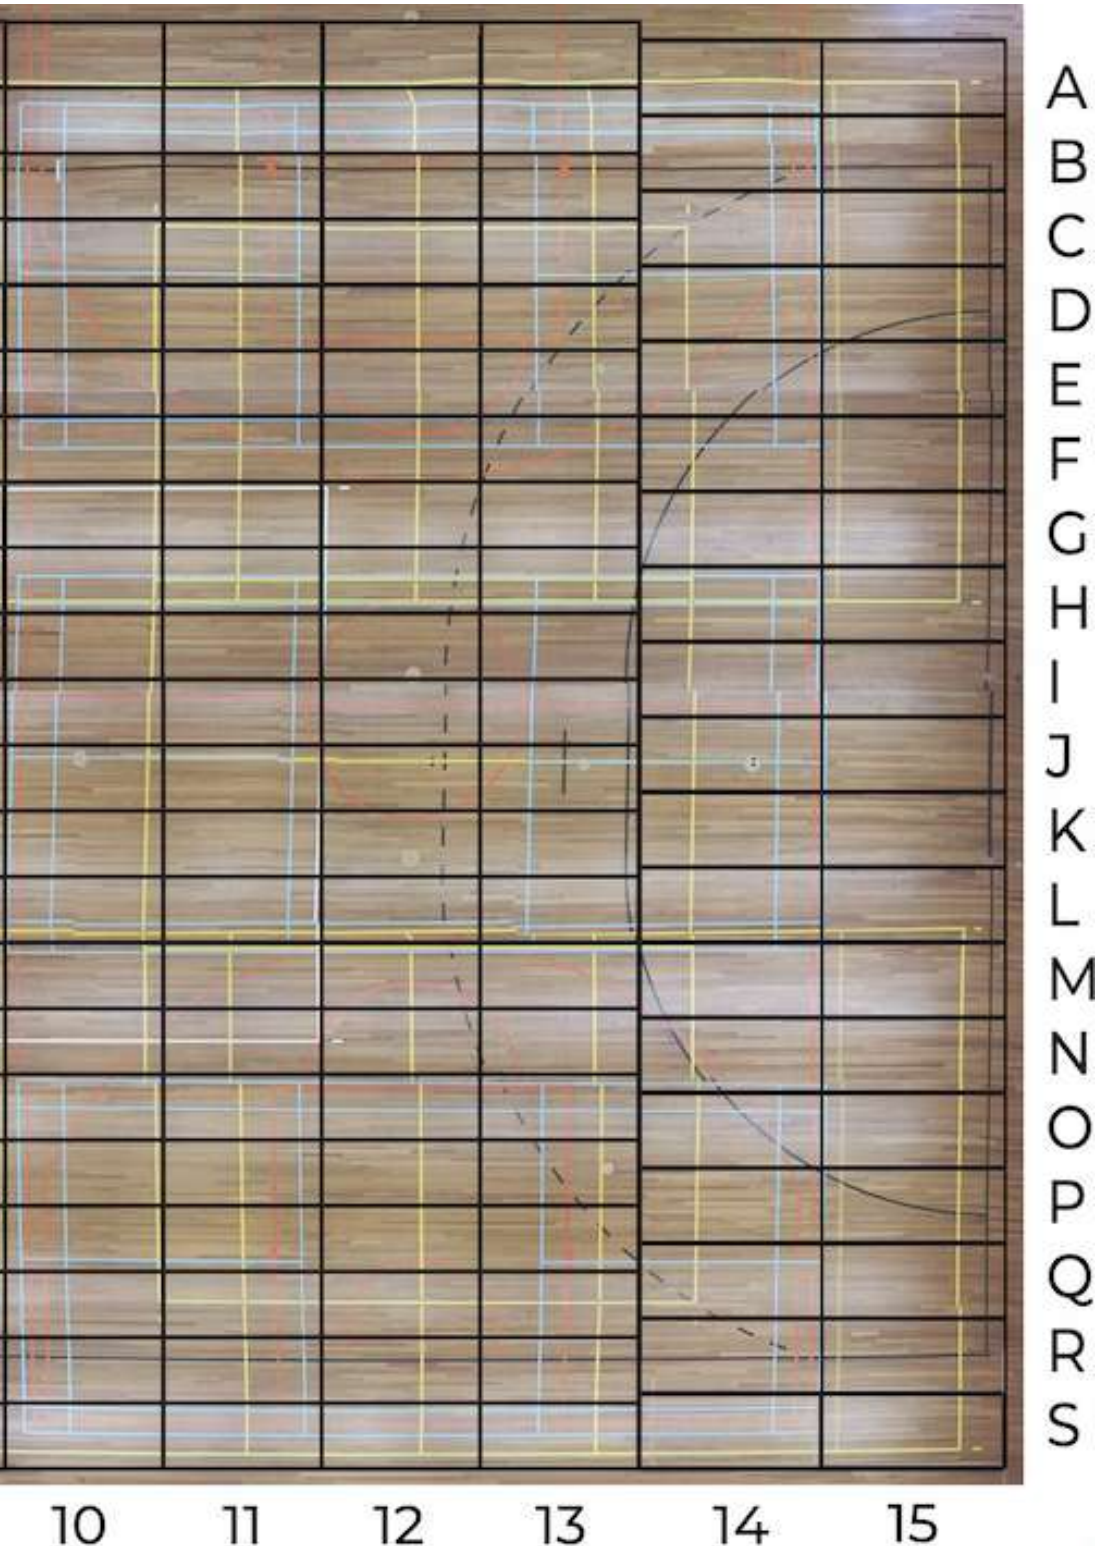


1. Pick a panel

The picture above shows the available pieces and will be updated every now and then.
The panels can only be sold once.
If requesting tables larger than 2600x1000 mm, please contact us, and we will send you the available larger panels.

2. Choose your frame

The steel frames are standard powder-coated in black RAL9005. Any other RAL colour is also possible on request.



3. Set the dimensions

We offer tables in sizes between 1800x900 mm and 3000x1000 mm or contact us for different sizes. The table has a standard height of 750 mm and the height of the bar table is 1100 mm.

.CUBICS

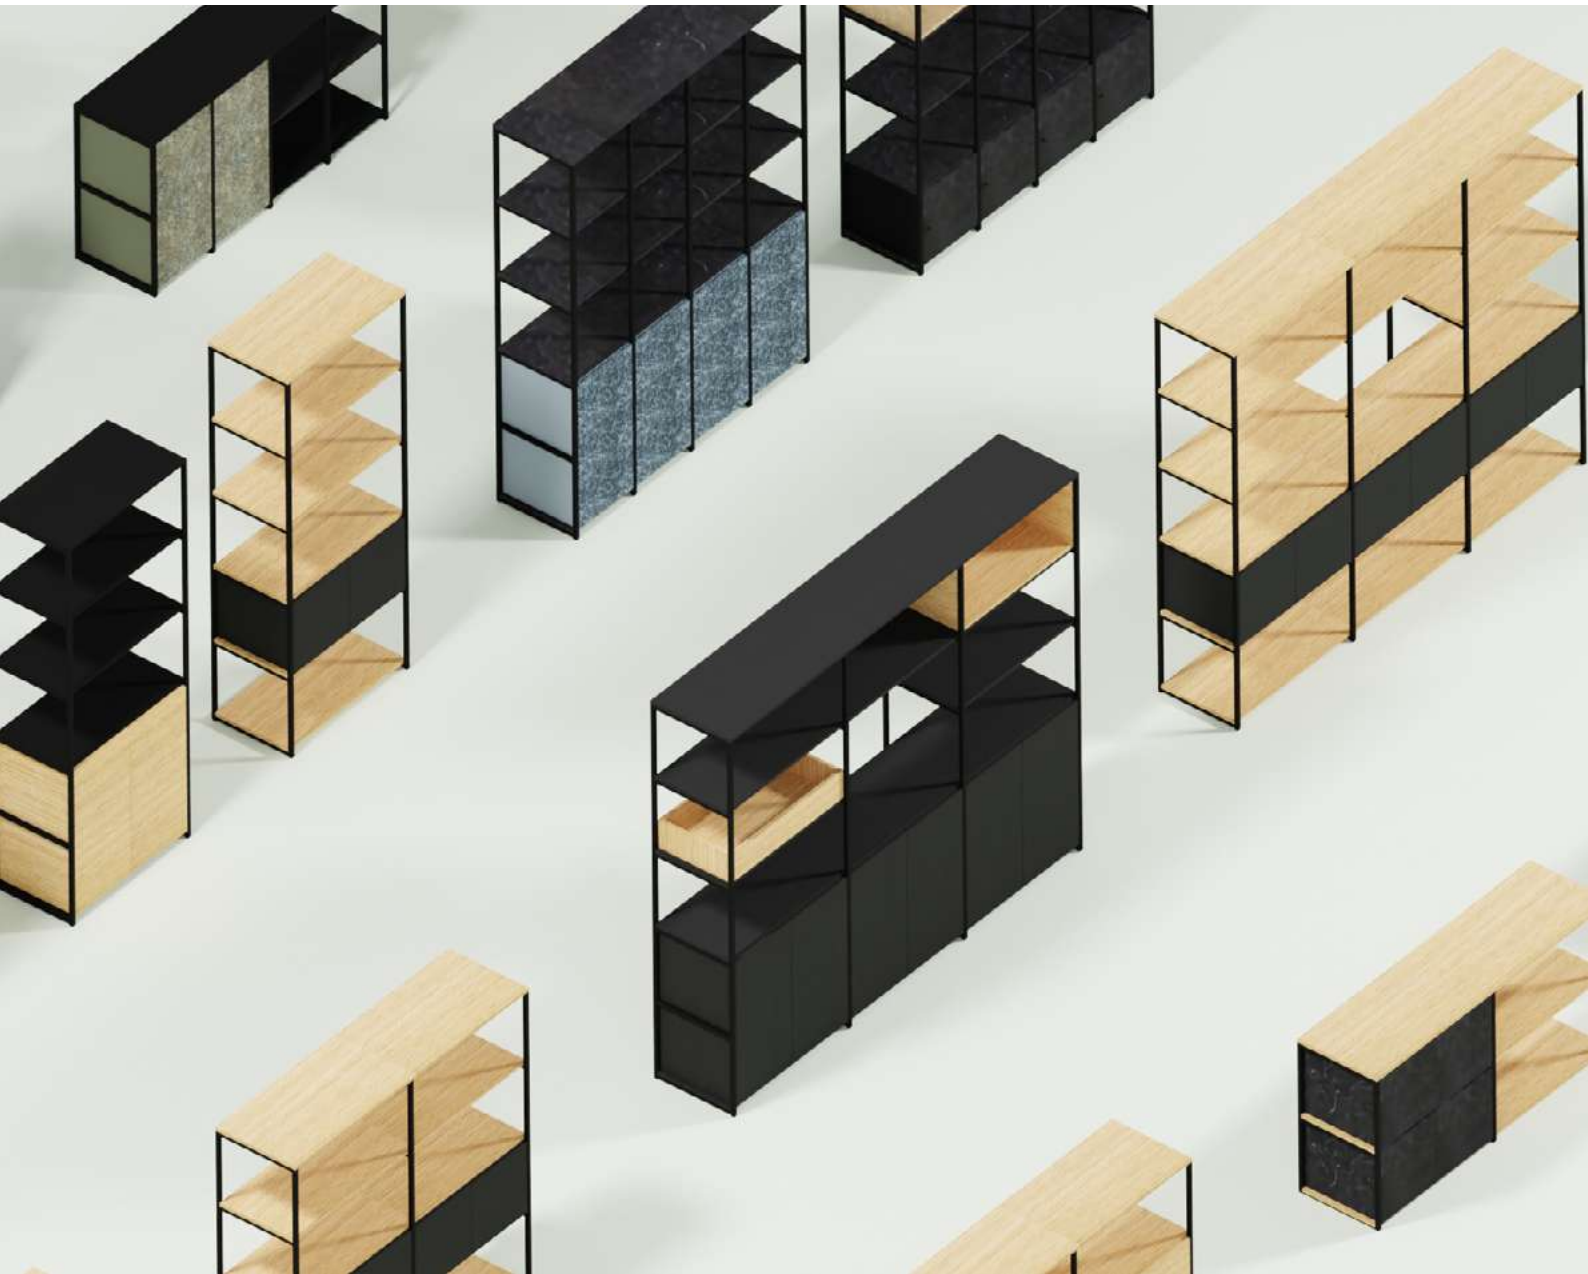
.PLANQ

.CUBICS MODULAR SHELVING SYSTEM

DESIGNED TO BE FLEXIBLE, MADE TO LAST FOREVER.

The Cubics is a multifunctional, flexible display- and storage system, made from innovative and recycled materials. The 20 x 20 mm steel tube frames give rise to a sleek and timeless design, for both work and the domestic environment. Finish the Cubics with modular closed and open boxes to create a lively and yet clean space.

The Cubics cabinets are available with various accessories. For example, small boxes (400 x 400 mm), high boxes (800 x 400 mm), or double boxes (800 x 800), which can be retraced on two sides. The closed boxes are standard equipped with a push-to-open system. For the finishing touch, add planters for a greener space, bench units for lounging, TV boxes for a meeting, and not to mention lockers for the shared offices and spaces.



.MAKE IT BLEND IN OR STAND OUT

.MATERIALS

.PLANQ

.Rezign decors

Rezign veneer

Rezign veneer is made of recycled overstock textiles or natural fibres with bioplastics. Comparable with regular soft HPL or wood veneer. The veneer is produced in the gross size of 3050x1000 mm with a thickness of 1 – 1.3 mm. Please note that the veneer is applicable in the tabletops and Cubics cabinets.

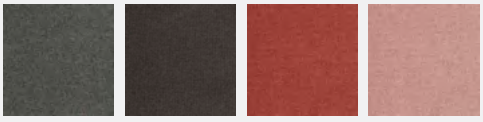
.Selected Fabrics

Fabric class 1

Soil - woven bottles

The Soil fabrics are woven from yarns, which exists out of 60% recycled RPET bottles. It is a strong and durable fabric that is GRS-certificated. The fabrics have a rich and matte appearance and has a 100.000 martindale abrasion.

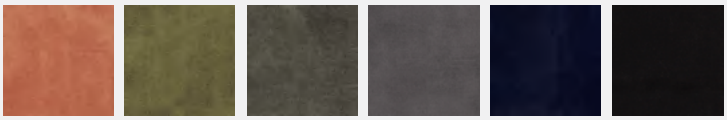
Natural 01 | Shell 196 | Beige 05 | Desert 109 | Ashgrey 40 | Eucalypus 193 | Steel 149 | Army 14 | Hunter 156 | Indigo 90



Zinc 167 | Anthracite 67 | Carmine 36 | Blush 92

Adore

The Adore collection is a serie of fine velvet fabrics. With a soft velour finish and strong pilling the Adore is a durable and shiny fabric made of 100% PES.



Blossom 166 | Moss 59 | Hunter 156 | Dolphine 180 | Indigo 90 | Anthracite 67

Alpine

The comfortable Alpine fabric is a soft bouclé, which exists out of 96% PES. The open structure makes it a soft fabric, especially for lounge products.

Ivory 101 | Natural 01

Fabric class 2

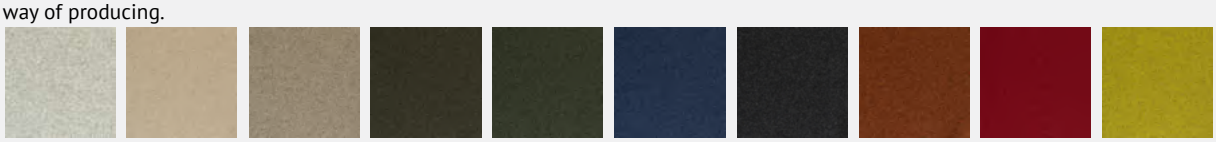
Bull - recycled leather

The Bull is a authentic upholstery that exists of a polyester top with a 100% recycled leather backing. This combination creates the quality of a natural leather but in a sustainable and more durable combination.

Grey 65 | Caramel 16 | Camel 09 | Cognac 28 | Moss 59 | Brown 15 | Anthracite 67 | Hunter 156

Facet

Facet consists of 100% recycled woolen yarns, carded from regenerated post-consumer wool like clothing and other products. Carding is an environmental friendly and highly specialized way of producing.



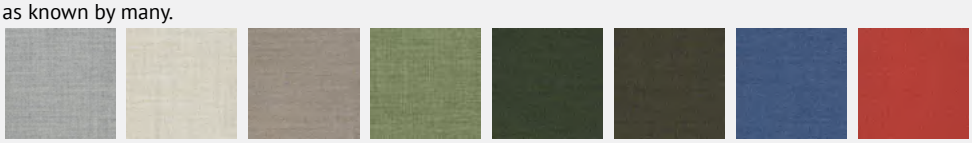
Ashgrey 40 | Beige 1037 | Kiezel 7 | Army 14 | Olive 53 | Blue 45 | Anthracite 67 | Terra 31 | Red 2011 | Yellow 24

.Selected Fabrics

Fabric class 3

Kvadrat - Remix 3

Remix 3 is an elegant upholstery textile distinguished by exceptional depth of colour. Exsist of 90% wool and 10% nylon. A timeless and contemporary fabric as known by many.



Remix 3 - 123 | Remix 3 - 223 | Remix 3 - 242 | Remix 3 - 933 | Remix 3 - 982 | Remix 3 - 842 | Remix 3 - 762 | Remix 3 - 643

Kvadrat - Steelcut Trio 3

Steelcut Trio is a hardwearing woollen upholstery textile designed by Frans Dijkmeijer. The three-dimensional surface of Steelcut Trio resembles small pyramids or steel points. Steelcut Trio is yarn-dyed and made from 3 differently coloured yarns. Exsist of 90% wool and 10% nylon.

ST 3 - 105 | ST 3 - 133 | ST 3 - 176 | ST 3 - 195 | ST 3 - 226 | ST 3 - 446 | ST 3 - 533 | ST 3 - 746 | ST 3 - 756 | ST 3 - 946

Kvadrat - Re-Wool

Crafted using 45% recycled wool, Re-wool is a rich upholstery textile with a sustainable profile. Reminiscent of colourful stitchings on a darker background, Re-wool features exceptional depth of colour, creating a dynamic play on the textile's surface when applied to furniture.

Rewool - 108 | Rewool - 158 | Rewool - 198 | Rewool - 218 | Rewool - 378 | Rewool - 448 | Rewool - 558 | Rewool - 648 | Rewool - 758 | Rewool - 858

.Fabrics specification

Fabrics

We offer a standard range of fabrics from some of Europe's leading textiles manufacturers. We have selected a range prefered sustainable fabrics. The most sustainable fabrics are highlighted with a green leaf symbol.

These fabrics have been chosen by the next criteria:

- Contain more then 90% renewable fibers.

- Are Cradle to Cradle Certified™, EU Ecolabel, Global Recycled Standard, Oeko-Tex Standard 100, Greenguard Gold certified.

- And contain > 60% recycled fibres.

Specification

The selected range of fabrics meet the next Martindale resistance and certificates:

Fabric	Abrasion	Fire Retardancy	Sustainability
Class 1			
- Soil - Woven bottles	100.000	BS 5852	
- Adore	66.000	BS 5852	
- Alpine	75.000	BS 5852	
Class 2			
- Bull - Recycled leather	32.000	BS 5852	
- Facet	100.000	BS 5852	
Class 3			
- Kvadrat - Steelcut Trio 3	100.000	BS EN 1021 parts 1 & 2, BS 5852	
- Kvadrat - Remix 3	100.000	BS EN 1021 parts 1 & 2, BS 5852	
- Kvadrat - Re-Wool	100.000	BS EN 1021 parts 1 & 2, BS 5852	

Fillings

All foam for our chairs and lounge chairs and benches is made from CertiPUR certified foam which contains no heavy metals, no formaldehyde, no PBDE, TDCPP, TCEP or 'Tris' flame retardants, no PCB, nophthalates, no vinyl chloride and has TVOC emissions of less than 0.5 parts per million.

.CUSTOM MADE

.Custom textile

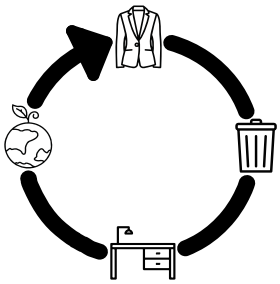
Do you have your own textile?

We are open to collaborate in turning your or your clients waste into beautiful interior products.

Check the infographic on the next page to discover the steps.

CIRCULAR INTERIOR CUSTOM MADE.

FROM OLD JEANS TO SUSTAINABLE INTERIORS



FASE 0

00 - 01

INVENTORY

Inventory on the composition of textiles and materials.
Examination on the samples of the textile leftovers.

FASE 1

01 - 04

>500KG

CERTIFIED SHREDDING

To shred all of the product there is a amount needed of atleast 1500kg. After 4 weeks the fibres are ready to spin.

04 - 07

50/50

SPINNING

in week 7 the fibres are spun together in combination with recycled or biobased plastics into sheets on roll.

FASE 2

07 - 09

PROTOTYPING & TESTING

The materials and fibres got tested to determine the correct composition.

09 - 14

PRODUCTION & TRANSPORT

The textile fibres got pressed into contemporary design products ready for a next life.

FASE 3

end - of life

CLOSING THE LOOP

After usage the products can be bought back on deposit return and pressed into new products or afterall shredded and 3D-printed into a new product.

WITH JUST ONE CHAIR MADE FROM RECYCLED DENIM WE SAVE 16.275 LITERS OF DRINKING WATER.

.PLANQ

RECYCLE YOUR OWN CLOTHING!

We love to make beautiful designs from waste materials. From jeans to a chair and army uniforms to a new cabinet and from old coffee bags to custom-made products. You name it, we design it.

But apart from our standard collection, we are also here to help to create new products from your old or overstock clothing. For more information on this, please contact us.

THE PROCESS IN STEPS

COLLECTING: 1-3 WEEKS

1. Send us a sample of the clothing or textile

Send us some information about the old / overstock clothing.
What is the composition, what are the colours, and how many do you have?
Send us a sample and we will check it with the fiberize company.

2. Start collecting

If the factory agrees, it is time to start collecting.
We need a minimum of 500 kg of textiles, but more is possible as well.
Please note that the MOQ may increase with more kg.

SHREDDING: 3-4 WEEKS

To let the immense machines run, we need at least 500kg of textile.
It costs €1,- per kg to get your clothing shredded into fibres.
This is excluding starting costs, the cleaning of machinery, and transport.
You can even have this with a certification!

SPINNING THE ROLLS: 3-4 WEEKS

From your fibres, we make grand felt rolls, adding recycled plastic or biological plastic.
With this half fabricate, we can make new products!

PRODUCTION: X WEEKS

It is finally time to recycle your clothing into new various products.
Firstly, for example, the rolls we can press into solid seats, clothing hangers or any other 3D formed product.
Secondly, the veneer can be applicated in different end-products, such as table tops, cabinets, displays or it even come into its own in kitchens.
Last but not least, it is also possible to make acoustic panels.
Then we just don't harden it.
